

Dear Applicant!

Thank you for your interest in the undergraduate program offered by the Faculty of Health Sciences of University of Pécs, Hungary!

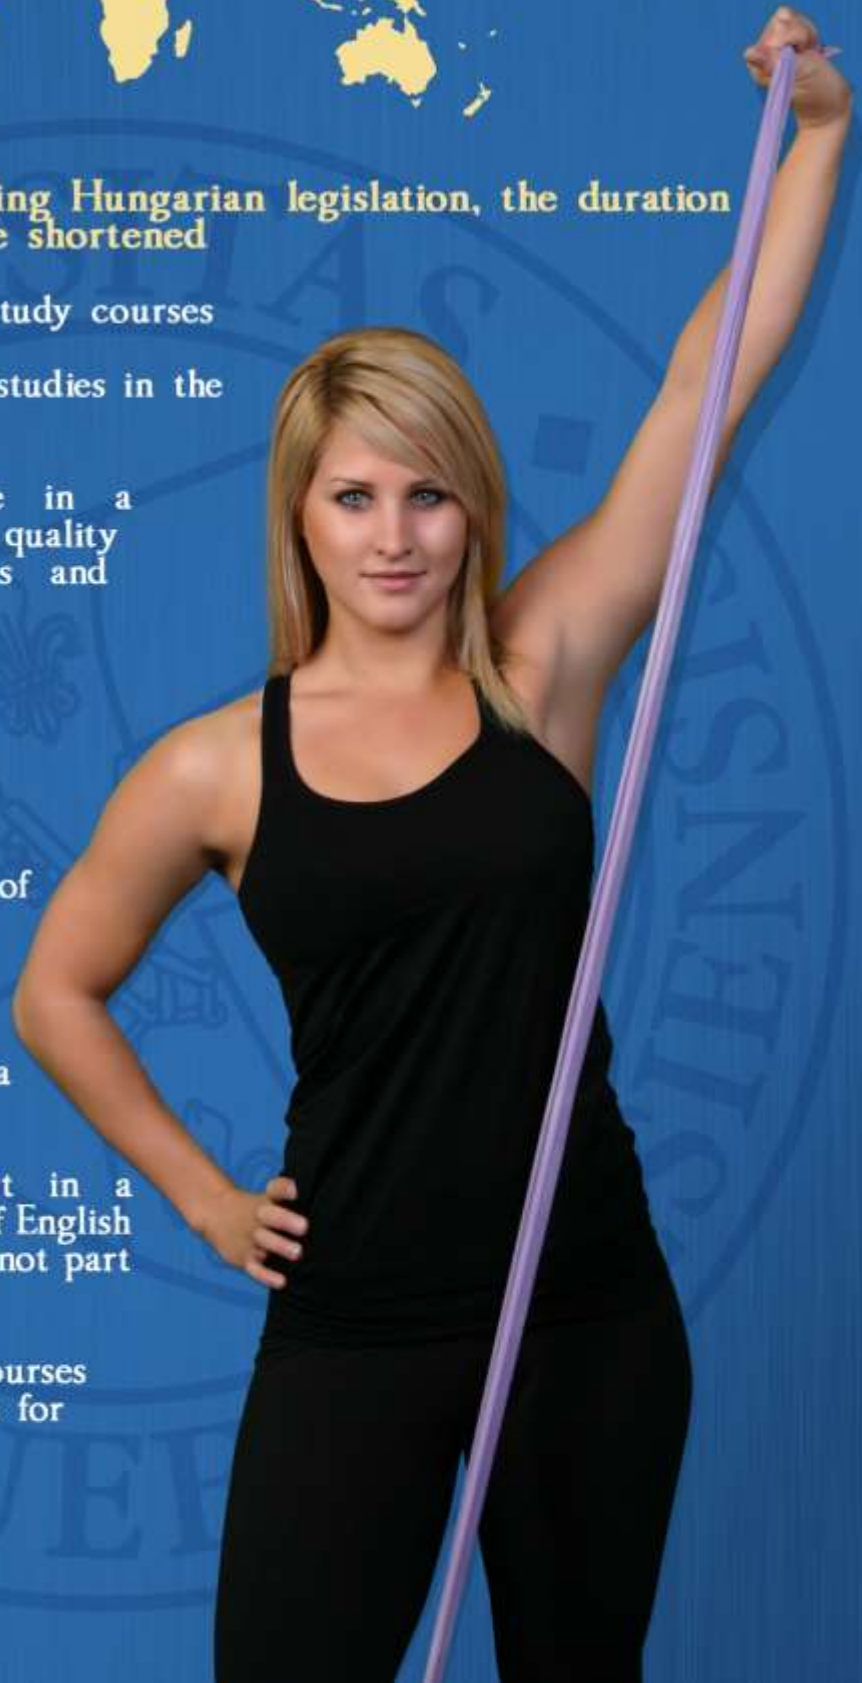

1 In accordance with the binding Hungarian legislation, the duration of the study program can be shortened

- ★ with the centralization of the study courses
- ★ with the inclusion of previous studies in the field of Health Sciences
- ★ you can obtain the degree in a shortened time but in the best quality with well prepared lecturers and mentors

2 Simple application process

- ★ No entrance exam!
- ★ Acceptance is based on results of the secondary- or high school certificate (GCE results)
- ★ Preliminary studies, training or diploma in health care means extra points during application
- ★ Applicants have to take part in a Skype-interview for evaluation of English language skills (the interview is not part of the entry requirements)
- ★ English language preparatory courses with various focus are available for accepted students

3 There are several good reasons to become a physiotherapist

★ Physiotherapy as a profession

Are you curious about the musculoskeletal system of the human body? Are you interested in how to re-learn walking after a serious injury? Working as a physiotherapist you may encounter healthy people aiming for health prevention and development, and also patients during their rehabilitation process. You will be able to work with children, adults and elderly as well. The applied therapies are versatile: from aquafitness through manual therapies to fitness-based movements.

★ Graduate prospects

Physiotherapists may work in hospitals, outpatient wards, clinics, early development centers, fitness- and wellness centers, health-focused hotels and spas, rehabilitation centers, home care services, social institutions, or private health services. After collecting sufficient practical experience, they may also start their own businesses.

★ Come and join us if...

You are interested in the art of healing with natural energy and movement therapies. It is favourable if you possess the appropriate physical status to carry out treatment correctly. This profession requires life-long learning to be able to provide the best care for your patients.

FINANCES

The best fee in the region, including the costs of

- theoretical studies
- obligatory practice

The tuition fee is

2500 EUR in the first semester, and 2000 EUR in all other semesters

The cost of living is low compared to European standards

- diners and restaurants have student-friendly prices
- dormitory is available

ACADEMIC STUDIES

Practice-oriented education: professional knowledge can be built using modern demonstration devices and live clinical practice.

The „Knowledge Centre“ (the central library of the University) with more than 1 million books and the most up-to-date library services helps the academic work. Student mentors help with academical issues and general arrangements.

LIFE IN PÉCS

Pécs is a pleasant city: it is large enough to provide a wide range of entertainment and recreational opportunities, but small enough to feel at home.

Pécs has mediterranean climate with warm summers and mild winters.

Throughout the year a vibrant cultural life awaits you with two theatres, a world-class concert hall, several museums and historical monuments, outdoor events and festivals.

Restaurants offer a wide selection of food (Hungarian, Italian, Greek, and Chinese) at student-friendly prices.

Campuses of the university can be commuted by bike or public transport.

The city offers several recreational opportunities, such as indoor and outdoor sport facilities, swimming pools, ice rink, tennis courts, hiking, etc.

The multicultural environment of Pécs is provided by its history and by the presence of thousands of foreign students who choose University of Pécs every year.

Talent is appreciated and supported outside academia as well: join the Dancing University of the University Musical Members for extensive cultural experience!
